

LOUISIANA STATE UNIVERSITY IN SHREVEPORT

Smithsonian Rep Speaks To LSUS Assembly

Louis Purcell, assistant curator of astronautics for the National Aeronautical and Space Museum in Washington, D.C., told an audience of about 350 students and faculty here that man has derived many benefits from the space program.

In Shreveport for Holiday in Dixie festivities, Purcell brought along moon rocks for display and examination by the students.

Industry Picking Up

Pointing out some of the good to be realized from the space program, Purcell said, "Space industries are picking up again and we're all going to reap the benefits." Even now, he said, while heart patients are enroute to the hospital, bio-sensors in the ambulance send messages to the hospital so medical personnel can know what the victim will require in the way of surgery or medication.

Cars today are better and cost less because of the space program, Purcell said, and since no lives were lost on the Gulf Coast when history's worst hurricane hit the region, the value of weather satellites can be appreciated. "People are alive today who owe their existence to NASA," Purcell said.

Space Benefits

Explaining benefits resulting from research and development in the space program, Purcell told his audience that tanks have been developed that can keep a pound block of ice from melting for 10 years. "It would take four years for the temperature inside the tank to come up to room temperature," he said.

If automobile tires were as leak-proof as the tanks which house liquid oxygen fuel on the great rockets, "it would take them 3.4 million years

to go flat," Purcell said.

Space Program Not Dead

Telling his audience that the Apollo program, not the space program, is being cut, Purcell said, "We've done just about everything to the moon but establish colonies and we have enough material to keep geologists busy for years." A reusable space shuttle vehicle and space base will be the next projects for NASA, he said.

"One thing that prohibits commercial firms from sending men to the moon is that space suits cost \$97,000 each and each astronaut has three—nine for each mission," Purcell said.

Eight Given Language Awards

Eight LSUS students have been awarded for their academic accomplishments by the Foreign Language Department, according to Mrs. Shirley Brown, department chairman.

Mrs. Carolyn Galloway, French 1, Marilou Bryan, French 51, Charlotte Smith, French 51, Mrs. Bette Leslie, French 55, and Larry Cunningham, French 61, were selected to receive awards by Joe A. Patrick, French instructor. The "Services Culturels Français" of New Orleans donated the awards.

Mrs. Yolanda Wallace, Mrs. Sarah Miller and Anita Yates received medals of excellence in Spanish. The Spanish awards were sponsored by the American Association of Teachers of Spanish and Portuguese. The association's monthly publication, "Hispania," will publish the winners' names.

Hardy Wins DFF Award

Dr. Laurence M. Hardy has been selected as a Distinguished Faculty Fellowship recipient by a system-wide committee of LSU faculty members. LSU System Vice President Joseph Reynolds announced the selection.

The award is sponsored and underwritten by the LSU Alumni Federation.

The award to Dr. Hardy was presented at the annual Spring Alumni Banquet, May 6, in the Royal Cotillion Ballroom of the LSU Union and carries a cash stipend of \$1,000 as well as a plaque. Each year faculty members of the LSU System who have made exceptional contributions in the area of classroom teaching are recipients of the award.

Dr. Hardy was born in Tulsa, Okla., earned his B.S. degree at New Mexico State University in 1962, the M.A. at the University of Kansas in 1965 and the Ph.D. at the University of New Mexico in 1968. He joined the LSUS faculty in 1968 when the sophomore year was instituted and has been responsible for zoology courses in comparative anatomy and embryology.

He has also served as co-sponsor for Lambda Sigma Upsilon, the campus biology club, and in that capacity has organized numerous field trips to the Ouachita Mountains, the Rockies, the Big Bend National Park and the New Mexico desert areas. He serves as health science advisor, preparing recommendations for students applying to medical and dental schools.

Rose Exhibit Set Through June 8

A rose exhibit is scheduled from May 5 to June 8 at the Louisiana State University in Shreveport library, according to a university spokesman.

The exhibit, sponsored by Dr. Gary K. Brashier, assistant dean for academic affairs at LSUS, replaces a Shakespearean exhibit by Patricia Bates, LSUS English instructor, and a photographic exhibit by Eastman Kodak Co.

Dr. Brashier's display will consist of a rose exhibition, a number of books and periodicals including American Rose Society publications, a rose culture exhibit, a display on the Shreveport American Rose Center, and rose show awards.

The LSUS library is open to the public from 7:45 a.m. to 9:30 p.m. Mondays through Thursdays and from 7:45 a.m. to 5 p.m. on Fridays. The library is closed on weekends.

ERNIE ROBERSON is congratulated by Don Duggan, president of Duggan Machine Works, Inc., after being named recipient of the speech award at the recent Awards Convocation.

20 Students Honored At LSUS Awards Night

Some twenty students received awards recently as LSUS held its first annual Academic Awards Convocation.

Each of the 10 LSUS academic departments presented one freshman and one nonfreshman award. Cost of the freshman awards, funded by the university, was limited to \$25 each.

Limited to \$100

The nonfreshman awards, funded primarily by outside organizations, were limited to \$100 each.

All winners are from the Shreveport-Bossier City area. The awardees, their departments and outside organizations are listed as follows:

Freshman awards—William F. Seymour, chemistry; David R. Rhodes, mathematics; Nancy A. Bettis, foreign languages; Donniss P. Bozeman, education and psychology; Richard L. Olin, English; Mary G. Jarzabek, speech; William F. Seymour, biological science; John M. Moore, business administration; Julian B. Leggett, Jr.,

social sciences; and Robert J. Burton, physics.

Chosen By Faculty

Nonfreshman awards—Frank N. Birdsell, chemistry, no outside organizations; George M. Glenn, mathematics, The Monroe Calculator Company; Eric M. Brewster, foreign languages, Delta Pictures; Deborah E. Betts, education and psychology, Altrusa Club; Carey D. Stephens, English, Delta Kappa Gamma; Ernest R. Roberson, speech, Duggan Machine Co.; John W. Powell, biological sciences, Kiwanis Club; Sandra K. Cain, business administration, Wall Street Journal; Ralph F. Bobo, social sciences, Southwestern Electric Power Co. and Gerald Keith Parvino, physics, no outside organization.

Each awardee must have been an LSUS student during the fall and spring semesters. Recipients were chosen by the departmental faculty from among all the students enrolled in courses administered by each department.

Meeting Features Historical Filmstrip

A historical presentation on the making of a filmstrip on the "Great Raft" of Red River was given by Hubert Humphreys, assistant professor of history, and Dr. John W. Hall, associate professor of geography, at the May 8 meeting of the newly formed Social Science Club in the Science Lecture Auditorium.

Both Humphreys and Hall explained to the audience that their main difficulty was in culminating the research material. A 300-page U.S. Army Corps of Engineers actual account of the removal of the many logjams, and 107 photographs taken around 1870 had to be combined in logical order for the 30-minute filmstrip.

Humphreys has authored two articles which appeared in state historical publications on the "Great Raft" and Hall is responsible for putting together the pictures for the filmstrip.

As interested social scientists both men mentioned that the rare 100-year-old photographs and the historical significance of the event provided them with an excellent topic and both a real challenge and a reward.

It was previously reported that a 2.0 average was necessary for membership in the Social Science Club but anyone enrolled in the university may join.

General To Speak Here May 12

Brig. Gen. Andrew B. Anderson, Jr., chief of staff with the Second Air Force at Barksdale Air Force Base, will speak here Friday, May 12.

Gen. Anderson replaces Lt. Gen. Russell E. Dougherty who, as the originally scheduled speaker, was forced to cancel his appearance. The program, scheduled for 11 a.m. in the school's Science Lecture Auditorium will be the sixth in the LSUS Distinguished Lecturers Series. Topic for the talk is "Strategic Air Command—Mission, People, Future."

Gen. Anderson, a native of Rocky Mount, N.C., graduated from West Point in 1948 with a bachelor of science degree in military engineering. He holds a B.S. degree in aerospace engineering and a master of arts degree in history from the University of Nebraska.

He logged nearly 540 combat hours during the Korean conflict. From then until mid-1956, Gen. Anderson served as pilot, operations officer and maintenance officer.

ANNOUNCEMENT

The bookstore will buy back books Tuesday and Wednesday, May 23 and 24.

SHOWN ARE SOME of the approximately 150 children and adults attending the recent Reader's Theatre production in the LSUS Library.

FINAL EXAMINATION SCHEDULE SPRING 1972

Class	Examination
8-9 MWF	Thursday, May 18
8-9 MWF & 1-2 M	8:00-10:00 a.m.
8-9 MTWThF	
9-10 MWF	Wednesday, May 17
9-10 MW	1:30-3:30 p.m.

12:30-2 TTh	Tuesday, May 16
	1:30-3:30 p.m.
1-4 TTh	Monday, May 15
	10:30-12:30
1-3 TTh	Tuesday, May 16
	10:30-12:30
2-3:30 TTh	Tuesday, May 23
	8:00-10:00 a.m.
6:30-9:30 M	Monday, May 22
	6:30-8:30 p.m.
7:00-9:30 MW	Monday, May 22
	6:30-8:30 p.m.
6:30-9:30 T	Tuesday, May 23
	6:30-8:30 p.m.
6:30-9:30 W	Wednesday, May 17
	6:30-8:30 p.m.
6:30-9:30 Th	Thursday, May 18
	6:30-8:30 p.m.
6:30-9:00 MTh	Monday, May 22
	6:30-8:30 p.m.

1. Regular classwork will be discontinued on Friday, May 12, 1972 at 5:00 p.m.
2. Examinations in BOOKS AND LIBRARIES will be given at the last class period.
3. Examinations in the following laboratories will be given at the last class period: AGRONOMY, ANIMAL SCIENCE, BIOLOGY, BOTANY, CHEMISTRY, MICROBIOLOGY, PHYSICS AND ZOOLOGY.
4. A student having three final examinations scheduled for the same day may request permission in the Registrar's Office to take only two exams.

Final Exams Here Again

Here we are again faced with final exams. After finishing all our term papers and the regular daily work needed to keep up with our classes we have to endure the emotional and mental stress of taking an examination that for many of us our future in college may depend upon.

But does our university allow us a "dead day" or two to let us catch our breath. No, of course not. Well, I for one don't like it at all. And I'm not just trying to plead for a free day so I can mess around and play pool or anything like that. I need a "dead day" before finals.

For many of the students this time of year is terribly hectic and especially if one is carrying a heavy load of subjects. There are summer jobs to look for, obligations to the family and friends, and countless other minute

things that contest the students needed study time.

A majority of schools have such an innovation because they realize the problem justifies such a solution. Not only are the students allotted more time to study for finals but also the psychological stress of having to "cram" is many times eliminated. And this says nothing for the teachers who are usually twice as busy as the students. If they had more time to prepare their tests both student and teacher would profit.

Because our school gives us so little time to prepare ourselves this semester we'll have to cram for finals. Perhaps next semester with some action being taken students will have some time to really study.

—PETER MINDER

Still Time To Change

Shreveport, Bossier and even Louisiana as a whole have suffered somewhat from our past lack of growth and the isolation of our industries. This is, however, a great asset in the area of environmental control.

We are now growing industrially as Los Angeles, Chicago, New York, Birmingham and others grew years ago. But, as late-comers, we have the opportunity to learn from previous mistakes. We could benefit from the technology developed in the past few years to minimize our pollution and increase our productivity.

Warnings Present

If we ignore the warnings, and continue along the present path of self-destruction, we, too, will end up as the first industrial cities have. The once lovely Louisiana will become a city-to-city garbage heap, where concrete and steel replace waterways and cypress trees. We citizens will spend endless hours in traffic jams along litter-strewn highways fighting for a few hours in the "outdoors" where we can gaze longingly at needleless pines and wonder where all the wildlife has gone. We will get what we deserve.

Everyone seems to believe pollution does not concern him. It is funny (sick) to notice once people become accustomed to receiving an endless flow of water from their faucets, they forget that the water is not manufactured in the faucet, but ultimately comes from a supply somewhere. A never-ending flow of water seems to be an "unalienable right" like the "right" to toss a beer can in a lake or a forested area. How goes the saying, "Let someone else worry about it?"

Personal Thing

But this is a personal, individual thing. It cannot be left in the care of only a few, who some call radicals, but must be entrusted to all, each and every one of us. We are all affected, because everyone breathes air and drinks water. Continued inaction in dealing with these problems is severely harmful to our generation, and suicidal for the next. We are not the only ones to breathe this horrible air—our children do, too. What will it be like when they grow up? If they grow up.

How much more do we have to lose before we see how much we have lost?

—JUNE DEASON

We Get Letters Kennedy Scores Angola Report

On KEEL Radio (AM) Sunday, April 23, a very touching report was given on the conditions at Angola State Prison.

The report showed that the prisoners there, in many cases, were receiving inadequate clothing, lousy food, and the cells were compared to those of dungeons. Some of the prisoners on death row (mostly convicted murderers and rapists) were interviewed.

As the report went on, I realized that something was missing. The report seemed slanted and only one side of the story was given.

I do not doubt for one minute that conditions at Angola need improving but I often wonder why the other side of the story is seldom discussed. Why don't we ever hear from the girl who was raped or from the widow of the young policeman who tried to stop an armed robber?

Perhaps in the future we will have a better system of criminal reform, but until then we should keep in mind BOTH sides of the issue.

—STEVE KENNEDY

'CAUSE I'M AFTER THE YOUTH VOTE, THAT'S WHY!

A Matter of Pride

Recently, some LSUS students formed a "reader's theater" and presented an enactment of the famed "Goldilocks" children's story in the library for area youngsters and their parents. The program was also carried to some other locations in the area.

And the LSUS Circle-K has formed for the community a speaker's bureau the purpose of which will be to arrange for members of our faculty to speak at civic functions throughout the Ark-La-Tex.

What I'm trying to point out is that, as concerned students, we should support involvement and endeavor to find new ways to get involved in the community. Perhaps by doing so, we can establish some inroads, in a public relations sort of way, that will help

us to gain a four-year status sooner, or get a new student union, or a Baptist center, or whatever.

After all, we should remember who it is that pays the bills: Mom and Dad Public.

How, then, do we get involved? Well, through our clubs and organizations, certainly. But moreover, we should do something personally. We are indeed ambassadors of what our school represents in our daily lives whether we realize it or not. We must definitely feel concern, but we must likewise express that concern so that others can become concerned too. To make LSUS a part of Shreveport we have to make it a personal relationship. It's a matter of pride.

—JAMES MILLER

Too Few Do Too Little

Throughout the semester, complaints have at some time been heard about almost every facet of LSUS procedures and the performance of faculty members and students who work in the various organizations of the school. Students are not satisfied with their instructors. Students don't like their yearbook. Students aren't happy with the things we print in the *Almagest*. Students feel that Student Government isn't being run just right.

Students are undoubtedly justified in many of their complaints. Probably all faculty members and student workers have made a mistake or two this semester. But at least they're trying.

At the close of this semester, why don't we all stop and realize how much faculty members and stu-

dents have tried to do for us and LSUS and acknowledge what they've been up against.

Faculty members have been swamped with innumerable committee meetings, often several a week, in addition to their regular classroom duties. All students who work in student organizations are full-time students, in addition to their extracurricular activities. As we all know, things sometimes have a way of piling up, and everybody can't do his best all the time.

We've all made mistakes this semester, but we've learned from them and can promise to do a better job next fall. Maybe we can do something about most of those complaints. Let's put away our criticism and thank these people for what they've done.

GETTING FAMILIAR WITH ONE of the main duties of the SGA is Bill Allen, who was recently elected SGA president. Allen's co-worker is Fran McInnis, an LSUS freshman.

Williamson To Head Circle K

Clayton L. Williamson, son of Mr. and Mrs. Earl G. Williamson, Sr., 502 Laurel Lane in Vivian, and brother of Caddo State Senator Don Williamson, was recently elected president of Circle K, a service organization at LSUS. Williamson is a 20-year-old freshman political science major.

Other newly elected officers are Bobby D. Nossaman, vice president; Dale H. Massie, secretary and William E. Gordon, Jr., treasurer.

Bob Nossaman

Nossaman, the son of Mr. and Mrs. Lavern E. Nossaman of 2726 Waggoner, Shreveport, is a 19-year-old sophomore, pre-denistry major.

Massie, 18, is the son of Lt. Col. and Mrs. H. W. Massie, 405 Town South Drive, Shreveport. He is a freshman business administration major.

Finance Major

Gordon, 18, is the son of Mr. and Mrs. William E. Gordon, Sr., 2029 S. Brookwood, Shreveport, and is a freshman finance major.

The purpose of the organization, according to Williamson, is to provide charitable services to the community and the university. It is affiliated with Kiwanis International, he said.

Volunteers, Contributions Needed At Satori House

By ELIZABETH LOTT

Have you ever wished you could make a contribution to humanity—really help someone who needs you? If you've got some extra time, Satori House, at 1029 Dalzell, can use you to do just that!

The House is a crisis intervention center. The volunteer staff tries to help anyone who needs help, especially the youth or persons with youth-related problems.

Professional Supervision

Joseph Garred, LSUS student and president of the Board of Directors for Satori House, said there is no adult or professional supervision, but there is a back-up staff of professional people who donate their time and assistance, without dictating rules or interfering.

Garred feels that the more established techniques turn a lot of people off today. "The people we are trying to help are those who have been alienated by society, bureaucracy, etc. We serve as a sort of referral service and try to make existing social services more readily available."

Several Services

Many people are unaware of the several types of services offered in our community—medical, legal, counseling, etc.—that are available at no charge. Satori House can help you locate these services.

The House is open 24 hours a day. Anyone is welcome to call or drop by anytime, according to Garred. Although no one except the resident

staff members sleep there, if you need a place to stay, they can help you find one.

Freaks Play Games

Garred indicated that the House is well accepted by the people of the community. In fact, last summer the freaks at Satori House played a baseball game against the Shreveport Police Union. The House participates in and sponsors basketball and baseball games and is currently planning a music concert for anyone who would like to enter.

Satori House welcomes anyone with a problem. If you have one, go by and talk to them.

Volunteer Help

Even if you don't have a problem, but would like to help someone who does, you should go by, too, because Satori House also welcomes new volunteer help.

All the people who work there are volunteers. The House is financed by contributions. If you're one of the lucky ones with no particular problem or crisis, consider helping Satori House help those who do have a problem. It would be a good way to use your spare time this summer—and a good opportunity to make your contribution to humanity.

40 Students Receive Advanced Placement

Some 40 local and area high school students who took Advanced Standing Examinations at Louisiana State University in Shreveport recently, will receive a total of 275 hours of credit when they enroll in LSU.

The Advanced Standing Program enables high school graduates of superior ability to earn as many as 25 semester hours of credit in basic courses toward a college degree in any curriculum of study offered by the university.

Local students who earned 12 or more hours, their parents and high schools are:

Paula M. Lynch, daughter of Mr. and Mrs. James Lynch, 2918 W. Laurel, Fair Park, 23 hours; James R. Alexander, son of Mr. and Mrs. James R. Alexander, 199 Pierremont Rd., Culver Military Academy, 17 hours; Mary K. Hoff, daughter of Mr. and Mrs. Raymond Hoff, 1311 Bellaire Blvd., Parkway, 16 hours; Janie L. Brewster, daughter of Mr. and Mrs. John B. Brewster, 926 Willow Drive, St. Vincent's Academy, 14 hours.

Joan Marie Spitzer, daughter of Mr. and Mrs. Sid Spitzer, 8629 W. Wilderness, Captain Shreve, 14 hours; John O. Foster, son of Mr. and Mrs. John O. Foster, 208 Jacquelyn St., Airline, 13 hours; George A. Leritte, son of Mr. and Mrs. W. J. Leritte, 1322 Patricia Drive, Bossier, 13 hours; Michael Winkelman, son of Mr. and Mrs. James Winkelman, 9210 Rhett Drive, Southwood, 12 hours.

A Minden High School student earned 14 hours. He is Ronald L. Ellis, son of Mr. and Mrs. Hoyette L. Ellis.

Other students who plan to enroll at LSU, their high schools and credits earned are:

Nine hours—Charles B. Thomas, Marshall High School.

Eight hours—Sheila D. Davidson, Fair Park; and Dorothy Richardson, Byrd.

Seven hours—Brenda Lou Pitts, Southwood; and Helena M. Purgatorio, Captain Shreve.

Six hours—Robert L. Echols, Byrd; Katherine Edwards, Bossier; Charlene R. Downs, Byrd; Vicki L. Thompson, First Baptist; Ronald G. Harlow, Captain Shreve; Emmett Jones III, Glenbrook High School of Minden; Ernest Kistler III, Clear Creek High of League City, Texas; and Terry A. Morris, Byrd.

Five hours—Rebecca A. Jones, Parkway.

Four hours—Dave B. DiPalma, Bossier; May E. Landrum, Byrd; Michael Wayne Lucas, Woodlawn; and Rebecca L. Saxon, Captain Shreve.

Three hours—Cynthia A. Black, Hall Summit High School; Betty G. Boyte, Friendship Academy; George S. Frederick, Parkway; Greg Frank Johnson, Southwood; Clifton Dale Lane, Airline; Rebecca Longfellow, Fair Park; John N. Schooler, Haughton High School; Claude T. Starkey, Woodlawn; and John R. Zich, Southside High School of Selma, Ala.

One hour—Lesley Jean Addison, Minden High School; Rebecca Bass, Theresa Littlejohn, and Candance E. Roberts, all of Southwood.

Bagatelle Copies May Be Claimed

Students who attended Louisiana State University in Shreveport during the Fall 1971 semester, and who are entitled to receive "Bagatelle," the school yearbook, may arrange to claim their copy by contacting the Bagatelle office or Loretta Gilliam, faculty advisor for the publication, according to a university source.

Those eligible to receive the yearbook at no additional cost are those persons who were registered in the fall semester as full-time students.

Part-time students may purchase the volume for four dollars, Mrs. Gilliam said.

The Bagatelle office is in Sci. 127 and Mrs. Gilliam's office is Sci. 106-C.

MISS KWKH CONTEST

The annual Miss KWKH contest is scheduled to be held Saturday, July 29, according to Frank Page, coordinator.

Any girls wishing to enter may contact Page at radio station KWKH, telephone 422-8711, or Lurline Dark, student counselor, in Sci. 110.

Honor Society Ritual Slated for Tonight

Some 44 students at Louisiana State University in Shreveport will be initiated into Alpha Sigma Omicron, national honor society, tonight.

The ritual is scheduled for 7 p.m. in the garden on the north side of the LSUS library. If the weather is bad, the program will be held in the school's Science Lecture Auditorium.

Families Are Invited

Mrs. Joan Harrington, ASO faculty sponsor, said families and friends of the initiates are invited to attend.

ASO bi-annually recognizes students and faculty members not only for academic excellence but for character and leadership abilities.

Students who will be initiated and their hometowns are:

Shreveport—Ralph F. Bobo, Mary A. Butler, Lane M. Cook, Frances E. Crouch, Jon M. Engelage II, Richard Feinburg, Carolyn Galloway, Philip J. Garrison, Yvonne Healey, Carol C. Henderson, Charles S.

Kneipp, Joy N. Koch, Julian B. Leggett, Jr., Martha Lennard, Diana L. Mabry.

Pamela K. Parrish, William F. Seymour, Thomas C. Spilker, Margaret M. Troup, Yolanda C. Wallace, Maribeth B. Warren and Linda R. Waters.

Bossier City—Sherry A. Bolin, Barbara A. Coronado, Ronald W. Couch, Tamara J. Hibshman, Anne King, Carla M. Lehnertz and David K. Rhodes.

Barksdale—John M. Moore. Longstreet—Marilyn M. Brumley. Keithville—Terry L. Coleman.

Coushatta—Lynn T. Crawford and Ronnie M. Warner.

Mansfield—John R. Gregory. Alexandria—Evelyn F. Vandersy-pen.

It's the real thing. Coke.

RALPH BOBO, SOCIAL SCIENCES award winner at the recent Awards Convocation is congratulated by **James C. Gardner, vice president, Louisiana Division of Southwestern Electric Power Co.** See story Page 1.

Over-the-Hill Gang Loses Roundball Fracas

Surprise, surprise. The annual Faculty-Student basketball game, recently played at the South Shreveport YMCA, was won by the students, 67-36.

Little wonder, too, what with Dr. Laurence Hardy, assistant professor of biological sciences, unable to keep his shoes on, and Dr. James Goodrich, associate professor of chemistry, spending most of his time sprawled on his posterior.

Faculty Competitors

Those competing for the faculty team were, besides Hardy and Goodrich, John R. Tabor, journalism instructor and supervisor of information services; Charles W. Johnson, math instructor; Joe Patrick, French instructor and Dr. Joseph W. Goerner, associate professor and chairman of the chemistry department.

Student gladiators (there were 15 fouls, one "bad" knee, a finger in an eye and one tripped player) were Reggie Bell, Frank Leone, Larry Lewis, Mike Adley, Cliff Roberts, Philip Garrison and Nyle Politz.

Tutt Officiates

Charles Tutt, another LSUS student, officiated the duel as well as any mortal possibly could have.

"The faculty guys were real hatchets out there," Politz said.

Tabor and Johnson were the only players to score for the faculty, each dropping in 18 points. Tabor was the chief hatchet for the faculty, being charged with four fouls.

Best Ball Handler

Goerner, the best ball handler for the "over-the-hill-gang," made several good passes to his teammates. But the ball was moving at a rather fast clip and his comrades either could not see it or chose to ignore it. Consequently it went over to the opposition.

The game's leading scorer was Roberts. He sunk 17 baskets and two charity tosses, for a total of 36 points. When not shooting he was harassing the faculty unmercifully, causing mental errors (in addition to those they made without being ha-

assed), stealing the ball and blocking shots.

Scoreless Antagonist

Adley, though scoreless on the night, was no less an antagonist. More than once, as a faculty player would start downcourt, he would see the ball heading in the direction from whence it had just come, Adley having pulled off another successful theft.

It was a night the faculty, throbbing muscles, aching knees and all, would probably prefer to forget, but such a catastrophe will not soon fade from memory.

Senate - Passed Resolutions Fail to Reach Administration

In the May 2 meeting of the Student Senate, it was revealed that several resolutions passed by the senate since the fall semester have not been processed, and consequently have not been forwarded to the administration for action. About eight resolutions are known to be involved.

Larry Hilton, in disclosing the problem, charged the senate secretary, Martha Lynch, with not properly performing her duties. "She didn't type them," Hilton said.

Unprocessed Resolutions

Among resolutions not processed are those having to do with SGA administration of the student union building, abolition of attendance probation, the proposed lease of land to the Baptist Student Union and the resolution requesting that the library be kept open on weekends for a short trial period.

Leroy Musselman, SGA faculty advisor, representing Dean Donald E. Shipp, spoke to the senate regarding the proposed five-year capital outlay request that will be presented to the LSU Board of Supervisors.

Top Priority

The top priority project, for which \$2 million has been requested, is a Student Union Building and cafeteria, Musselman said. Other projects, in order of their priorities, are \$600,000 in utility and site work, \$1.5 million for a gymnasium, \$2 million

for a Business Administration and Education classroom building and \$300,000 for renovation of the library's second floor.

The resolution recently passed by the senate requesting an on-campus infirmary and full-time nurse had not yet reached the dean's office, Musselman said. He also said the administration considers the infirmary a high priority project.

Study Day

The administration is giving a great amount of consideration to the proposal for a concentrated study day the last class day prior to final exams, the senate was told.

Musselman said that updated attendance regulation procedures are being investigated, but, "some of the faculty, for various reasons, are not in favor of changes."

Faculty, Wives Begin Tennis Competition

Play has begun in the LSUS Faculty Tennis Tournament. Nineteen faculty members plus several faculty wives have entered the competition which features both men's doubles and mixed doubles play.

In games completed in the men's doubles competition, the team of Patrick and Merrett defeated Bates and Thompson 6-1, 6-2. Patrick and Merrett beforehand had finished off Brashier and Smith 6-3, 6-1. Patrick and Merrett will compete in the men's doubles final.

In the mixed doubles play, only two games have been played. The team of Brashier and Bowen beat Scott and Scott, 6-0, 6-3, but lost to the team of Patrick and Patrick, 6-0, 6-1.

The faculty tournament is being played to promote exercise and recreation. Hopefully the winners of the student intramural tournament will compete against the mixed doubles and men's doubles faculty winners.
